

A popular government without popular information, or the means of acquiring it, is but a prologue to a farce or a tragedy; or, perhaps both. . . .

—JAMES MADISON, 1822

TECHNICAL WRITING, EDITING, FORMATTING, AND RELATED DOCUMENT SUPPORT FOR GOVERNMENT

Publications are a major component of government's mission to its citizens. The Government Printing Office Web site GPOAccess offers nearly 400,000 Federal full-text publications, with another 130,000 available at other U.S. Government sites. Credible, concise government documents that clearly address relevant issues are essential to a working democracy. Ryan & Co. is there to help you compose your most important and complex policy, forecast, periodical, instructional, solicitation, and procedural documents.

In today's highly charged, partisan environment, precise, clear, crisp, accessible, persuasive, and memorable government documents make the difference between a compelling record of accomplishment and consignment to oblivion or worse. Government agencies exist in a competitive environment of finite funding and evolving priorities. Consider those agencies that enjoy widespread respect both inside government and among their constituents: the Congressional Research Service (CRS) and Government Accountability Office (GAO) come to mind. What do they have in common? A shared respect for the written products they consistently deliver. And that is what we consistently deliver at Ryan & Co.

OUR CORE COMPETENCIES

- ➔ With **PAST PERFORMANCE** in more than 20 subject matter areas ranging from Aerospace to Zoning, we adapt quickly and seamlessly to new environments.
- ➔ Our work spans more than **25 AGENCIES IN FEDERAL, STATE, AND LOCAL GOVERNMENT**, with special emphasis on defense, education, environmental issues, healthcare, international affairs, IT, and nuclear energy.
